\* The Weekly Schedule is abundantly flexible, but it does represent my normal week.

\*\* People often ask about "family time" as it seems I don't have much. I often work at home so am with them as I read, prayer, etc. Some subset of the family is always with me during exercise periods and set-up at the building. Shepherding meetings at night are often times to spend, together as a family, with other families in our church.
